

**State of New Hampshire  
Department of Health and Human Services**

---

**Monthly Data Dashboard  
May 2021**

*Division for Children, Youth and Families*

# About this Data:

- Data reported throughout this book has been extracted from the New Hampshire statewide automated child welfare information system (SACWIS) known as Bridges.
- The data cannot be generalized given the multiple processes used to query the data and the complexity of the measures.
- Some of the underlying data is based on service authorizations which may take additional time to process. Accordingly, some data is withheld for an additional month to improve accuracy.
- All data in these monthly reports should be understood as preliminary as it is being extracted from a live case management system and will improve in accuracy over time as information is documented in individual cases. For this reason, please consider the annualized data reported in the annual DCYF Data Book as the most accurate source for identifying and following longer term trends.
